The Deep Spring.

On the 4th of July Dr. Simpson S. Department of Agriculture. Jackwas prospecting for water near son station, for the week ending Saturday, August 17, 1901. his residence at the west toll gate. He found a spring at the depth of eight feet.

This seems to be a medicated spring, containing properties similar to the Schumer springs. Many of our citizens have been using the water and they say it surely has medical properties in it. Should this spring prove its medical properties it will be a vast importance to Jackson. Mr. Simpson tells us that two of our citizens are going to try the water by using it exclusively for a few weeks, and if found benefibeing sowed.

"NERVE WASTE."

"NERVE WASTE."

One of the most helpful books on nerve weakness ever issued is that entitled "Nerve Waste," by Dr. Saw-yer, of San Francisco, now in its fifth thousand. This work of an experienced and reputable physician is in agreeable contrast to the vast sum of talse teaching which prevails on this interesting subject. It abounds in carefully considered and practical advice, and has the two great merits of wisdom and sincerity.

It is indursed by both the religious and secular press. The Chicago Advance says: "A perusal of the book and the application of its principles will put health, hope and heart into thousands of lives that are now suffering through nerve impairment."

The book is 81, by mail, postpaid. One of the most interesting chapters—chapter xx, on nervines and nerve tonics—has been printed separately as a sample chapter, and will be sent to any address for stamp by the publishers, The Pacific Pub. Co., Box 2658, San Francisco.
